EXPERIENCE

Frontend Instructor | *Turing School* | *Denver, CO to remote*   10/2019 - PRESENT

- Taught over 400 students frontend engineering skills.
- Continuously iterated on improving the frontend curriculum by documenting pain points (for both students and instructors) from one section of the program to the next.
- Mentored new instructors; providing instructional support and guidance. Assisted many of these instructors on their own growth path at Turing. I also created tangible resources to help with onboarding.
- Created new resources, projects and exercises for students. One example of this is a bank of advent calendar-style exercises for extra repetition practice.

React, Mocha, Chia, Web Accessibility, JavaScript, Git, GitHub, CSS/Sass, HTML

Software Engineer | *Smashing Boxes* | *Durham, NC to remote*   02/2019 - 10/2019

- Quickly learned to work with multiple technologies to build frontend applications to meet the needs of clients of various sizes, from startups to enterprises like Cisco.
- Became the in-house expert for building CSS micro animations and debugging browser inconsistencies.

Angular, TypeScript, React, React Native, Git, GitHub, CSS Animation, CSS/Sass, HTML

Frontend Developer | *Rivers Agency* | *Chapel Hill, NC*   11/2017 - 02/2019

- Attended a training in web accessibility principles, and brought back what I learned to my coworkers through lunch and learn sessions. This decreased last minute accessibility fixes, and added accessibility compliance to our service offerings.
- Built responsive websites to meet the needs of multiple clients. I provided training on content entry and site maintenance to clients as a part of the handoff at the end of engagements.

Vue, PHP, Shopify, Wordpress, Web Accessibility, Git, Bitbucket, CSS/Sass/LESS, HTML

EDUCATION

The Iron Yard | Durham, NC | *Frontend Web Development Certificate*   07/2017- 10/2017

University of NC Wilmington | *B.A in Special Education*   GRADUATED 2014
