**Frontend:** React (Next.js), TypeScript, Vue, JavaScript
**UI & Systems:** Design Systems, Component Architecture, Accessibility (WCAG), Responsive UI
**Styling**: HTML5, CSS3, Sass, LESS, CSS Animation
**Integration & Tools:** REST APIs, Headless WordPress, Git, Netlify, React Testing Library, Mocha

## EXPERIENCE

**Senior Frontend Developer** | *The Office of Experience* | *Remote* 06/2022 - 04/2026

- Led frontend development across 10+ production applications
- Architected and implemented reusable component systems, improving UI consistency across projects
- Translated complex Figma design systems into responsive, accessible interfaces
- Collaborated cross-functionally with designers and engineers in a remote team

**Frontend Instructor** | *Turing School* | *Remote* 10/2019 - 03/2022

- Instructed 400+ students in CSS, JavaScript, React, and more, with a focus on modern frontend architecture
- Created and maintained learning materials, exercises, and project-based assignments to support progressive skill development in frontend development
- Trained and onboarded new instructors on curriculum delivery and teaching standards

**Software Engineer** | *Smashing Boxes* | *Durham, NC* 02/2019 - 10/2019

- Implemented interactive UI components and animations to enhance user engagement
- Collaborated with design teams to deliver high-fidelity, pixel-perfect interfaces

**Frontend Developer** | *Rivers Agency* | *Chapel Hill, NC* 11/2017 - 02/2019

- Developed responsive, high-performance marketing websites with a focus on SEO, accessibility, and cross-browser compatibility
- Collaborated with designers and stakeholders to implement visually polished, user-friendly interfaces
